

E105T1

RM:
105

EXCELLENT TOP-END YIELD WITH STRONG AGRONOMICS TO MAXIMIZE GROWER PRODUCTIVITY

- Adapted to continuous corn acres
- Fantastic late-season plant health and stalk strength allows movement south of zone
- Good drought tolerance allows for flexible placement on soil types

Performance By...

E105T1 is broadly adapted across all soil textures. Plant at or slightly above grower-standard populations for best performance. E105T1 is a strong choice in any cropping rotation.

1-9 Scale: 1 = Best, Tallest or Highest; 9 = Worst, Shortest or Lowest; (-) = Not Available, NA = Not Applicable.

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn and soybeans, and combine high-yielding genetics with the powerful, non-selective, postemergent weed control of Liberty® herbicide for optimum yield and excellent weed control.
