

E113L7

RM:
113

BIG TOP-END YIELD POTENTIAL ON HIGHLY PRODUCTIVE SOILS

- Good staygreen and late season plant intactness
- Good tolerance to high pH soils for broad placement
- Very good root strength for season long standability

1-9 Scale: 1 = Best, 9 = Worst, (-) = Not Available, NA = Not Applicable.

Icon Scale: ★ Best Choice ● Good Choice ▼ Average to Slightly Below Average ✘ Not Recommended

* Rating represents an assessment of stand establishment, chlorosis severity and yield performance

** Indicates whether hybrid contains multiple agronomic phenotypic traits deemed important for continuous corn systems

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, postemergent weed control of Liberty® herbicide for optimum yield and excellent weed control.
