

# GRAIN SORGHUM

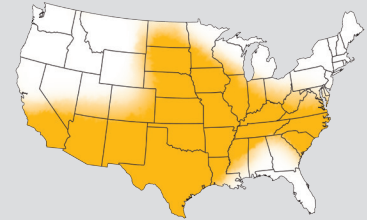

## AG1201

### Early Bronze Grain Sorghum

- Very uniform
- Excellent yield for maturity
- Strong drought tolerance
- Adaptable across a wide range of growing conditions
- Sugarcane aphid tolerance

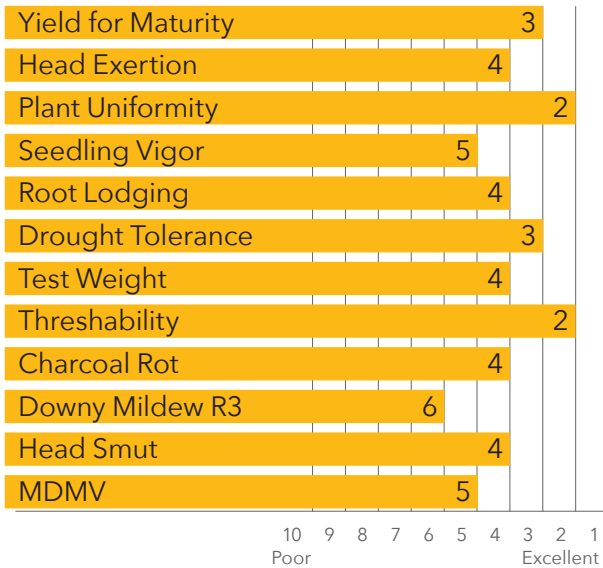

**Recommended Seeding Rates:**  
Vary depending on local growing conditions. Please see your Alta Seeds retailer for local recommendations.

■ Primary area of adaptation

## CHARACTERISTICS & RATINGS

**Early** Relative Maturity  
**60** Days to Mid Bloom  
**13-15** Seeds/Lb (1,000) – check seed bag  
**Bronze** Grain Color  
**Semi-open** Head Type  
**30-36"** Plant Height  
**Red** Plant Color

Based on Alta Seeds research trials relative to other Alta Seeds products.

## FIELD POSITIONING

|                                 |    |
|---------------------------------|----|
| Tough Dryland                   | HS |
| High Yield Dryland Environments | S  |
| Limited Irrigation              | S  |
| Full Irrigation                 | S  |
| High pH Soils Iron Chlorosis    | MA |
| Early Planting / Cold Soils     | X  |
| No-Till                         | X  |
| Poorly Drained Soils            | X  |
| Anthraxnose Prone Area          | S  |
| Downy Mildew (Race 3) Area      | X  |
| Head Smut Prone Area            | MA |
| Sugarcane Aphid*                | HS |

Observed Suitability and Field-By-Field Positioning  
 HS = Highly Suitable      S = Suitable  
 MA = Manage Appropriately      X = Poor Suitability

\*Tolerance confirmed in third-party testing conducted by the Agricultural Research Division of the US Department of Agriculture in Stillwater, OK.
