

GRAIN SORGHUM

AG1301

Medium-Early Cream Grain Sorghum

- Performs well in dryland conditions and responds very favorably to irrigation
- Excellent staygreen
- Good standability
- Very good plant uniformity
- Widely adaptable
- Sugarcane aphid tolerance

Recommended Seeding Rates:
Vary depending on local growing conditions. Please see your Alta Seeds retailer for local recommendations.

Primary area of adaptation

CHARACTERISTICS & RATINGS

Medium-early Relative Maturity

63 Days to Mid Bloom

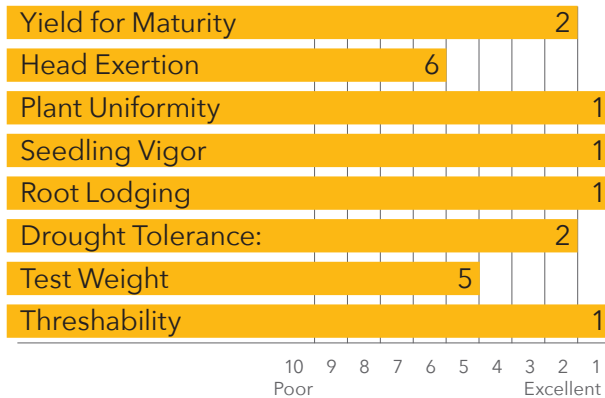

17-18 Seeds/Lb (1,000) – check seed bag

Cream Grain Color

Semi-compact Head Type

40-46" Plant Height

Red Plant Color

Based on Alta Seeds research trials relative to other Alta Seeds products.

FIELD POSITIONING

Tough Dryland	S
High Yield Dryland Environments	HS
Limited Irrigation	HS
Full Irrigation	S
High pH Soils Iron Chlorosis	MA
Early Planting / Cold Soils	X
No-Till	MA
Poorly Drained Soils	X
Sugarcane Aphid*	HS

Observed Suitability and Field-By-Field Positioning
HS = Highly Suitable S = Suitable
MA = Manage Appropriately X = Poor Suitability

*Tolerance confirmed in third-party testing conducted by the Agricultural Research Division of the US Department of Agriculture in Stillwater, OK.
